

HOB[®]

ELEGANT DOORS

The brand HOB stands for quality and high end design on entrance doors. We work tirelessly since 1996 as fabricators in the aluminum industry with specialisation in designing architectural systems.

Our multiannual experience in door manufacturing, the use of new materials such as glass, steel and aluminum combined with our technological abilities, creates innovative products of high durability and aesthetics.

Our devotion to continuous improvement with our team of architects, engineers and specialized staff led us to the design and production of the state of the art entrance door system, HOB DOORS!

Enter a world of elegance

When the passion and the inspiration of the architectural design meets the fabricator's spirit and expertise... the result is wondrous and innovative!

HOB DOORS
*a world of high quality
and trust since 1996!*

axon
door

The ultimate choice to a world of privileges

The inspiration to create and the passion for perfection make each AXON DOOR unique. That's because in HOB DOORS, nothing is impossible and everything is important down to the last detail. AXON DOOR combines the dynamism in construction with the state of the art technology, elegant looks, designing percision and outstanding character.

Every AXON DOOR... wants to and can be unique!

Top class innovation in security and aesthetics, the **Siccona Door** introduces a brand new category in the field of Entrance Doors. The whole structure is fully intergrated into 6mm securit glazing thus giving a full flat view. The usage of ceramic paint combined with digital painting give the opportunity of choice between multiple drawings.

The only certified system for entrance doors that are completely covered with glass.

The perfect solution for hotels and resorts!

A new innovation on entrance dooors!

With the option of wood coating on the internal side of the door, **HOB** makes every hotel room, look like home, combining the security of an aluminum door with the classic design of a wooden door!

Choose from a variety of wood coatings
